

## DECOMMISSIONING

### WITH OVER A DECADE OF DECOM EXPERIENCE

CETCO has decades of experience with Decommissioning Fluid Treatment Services and the largest DNV Filtration rental fleet in the global offshore market. While providing solutions for well and pipeline cleanup fluids, topside flushing, safe degassing services, and slops tank fluid overboarding, we perform all these services at any flow rate. Our assets are NACE compliant, and our in-house Engineering and Project Management Teams are the best in the business.

### APPLICATIONS

- Topside Flushing and making safe
- Pipeline Clean-up
- Pipeline Flushing
- Batch Fluids Overboarding
- Well Fluid Treatment
- Diesel Solids Filtration
- Consulting Services

### FEATURES & BENEFITS

- Working with an experienced Decom services Vendor
- Treat fluids at source – no need to tanker or decant into ISO tanks
- Substantial cost savings over Onshore treatment
- Readily available Plug & Play proven technology packages
- A Genuinely GLOBAL Service offering
- Time served Offshore Project Engineers
